VIBRA-GRIP

Portable Vibration System™

*Designed for either pneumatic
or electric vibrators!*

NEW!

VIBCO's new suction-cup mounted vibration system -- the VIBRA-GRIP™ -- is the perfect quick way to either depeak or settle materials IN your bin or hoppers or move materials OUT of them . . . all without costly mounting & installation!

Get "The Grip"™ SM

- **EASY!** Simply place VIBRA-GRIP on the bin or hopper wall where you want it and pump the suction cup to hold the cup firmly in place. Then start the vibrator and watch your material flow!
- **PORTABLE!** One VIBRA-GRIP can service multiple bins or hoppers . . . just release the suction cup and move it from one bin to the next.
- **VERSATILE!** The VIBRA-GRIP can be equipped with pneumatic pistons or turbines or small electric vibrators. They can be used on hoppers and bins holding a few pounds of material up to 10,000 lbs! Works on most clean, dry, and smooth non-porous surfaces -- like stainless steel, aluminum, plastics, polymers, fiberglass or carbon steel.
- **COST EFFECTIVE!** No costly mounting required. No damage to your bin or hopper. No additional air is required to maintain the suction mount.
